Date: _____

Youth Signature	Date of Birth
Print Name (Youth)	Group Home (If Applicable)

Receipt
(ILP Use Only)

Why do you need your Social Security card?

If you are going to work in the United States you will need a Social Security card. This card has a number on it that is unique to you. It is how the government keeps track of your wage earnings and the amount of taxes paid into the system.

How do I get it?

Go to your nearest Social Security office. For your nearest location visit the Social Security website at <http://www.socialsecurity.gov>, or by calling 1-800-772-1213.

When applying for a Social Security card you will need to provide proof of identity. Applicants will need to bring at least two documents proving their age, identity and proof of citizenship.

Proof of Age

To prove your age you will need a birth certificate. If you do not have one they will often accept a religious document made before you were three months old. These documents must be originals. Copies are not accepted. If you are a United States citizen born outside of the States you will need to bring your passport.

Proof of Identity

You will need to provide current proof of identity. Your birth certificate does not count for this. It needs to be something current with your name on it. The Social Security Administration prefers picture identification. The document needs to show your name, age or birth date.

Documents that are acceptable include:

- Driver's license
- Marriage or divorce record
- Military records
- Employer ID card
- Adoption record
- Life insurance policy
- Passport
- Health Insurance card (not a Medicare card)
- School ID card

Proof of Citizenship

You will also need to prove that you are either a United States citizen or are working lawfully in the country. Applicants will need to bring their birth certificates if they were born in the United States. If you were born outside the United States, but are a citizen, you will need proof of citizenship. A United States Consular Report of birth, passport or Certificate of Birth stating your citizenship is needed.

Protect Your Social Security Number & Card

Protect your SSN card and number from loss and identity theft. Do not carry the card with you. Keep it in a secure location and only take the card with you when you must show the card e.g. to obtain a new job or open new bank account, etc. Do not allow other to use your social security number as their own.
